Cold Storage Turkey Eaten at Dinner at Alliance Country Club.

Is Beleived to Have Caused Wholesale Poisoning.

COL. C. C. WEYBRECHT DEAD

Prominent Stark County People are Victims in Peculiar Poisoning Case.

(By Associated Press.)

Alliance, Ohio, August 26. — Colonel Charles C. Weybrecht, aged 50, who returned only three weeks ago from France where he had command of the 146th Infantry, 37th Division, died here this morning as a result, physicians believe, of eating cold storage turkey at a dinner last Saturday night at the Lakeside Country Club at Canton.

Mrs. Helen Sebring Gahr, 33, of Sebring, Ohio, also is dead, and Mr. and Mrs. John Sharer are paralyzed and their recovery is said to be extremely doubtful.

Specialists from Cleveland were summoned yesterday to attend the stricken persons.

Colonel Weybrecht and Mrs. Gahr died this morning.

Colonel Weybrecht served two terms as Adjutant General of Ohio. Mrs. C. Bates and Mrs. W. F. Sanford, both of Alliance, also are seriously ill.

From Canton comes word that a colored waiter at the Country Club is dead from food poisoning, the chef is now in a serious condition at a Canton hospital and his recovery is doubtful. Another waiter was ill Monday, but was much improved today.

Mr. and Mrs. Louis H. Brush, of Salem, Ohio, who attended the dinner party at the club are very ill today of the same malady. Mr. Brush is publisher of the Salem News and the East Liverpool Review.

PROMINENT RUSSIAN CITIZENS BURIED ALIVE BY BOLSHEVIKI

Glimpses of Bolshevik outrages in Mitau, Russia. Above, big grave in which men and women were buried alive and some of the bodies, covered with lime, after disinterment.

During the occupation by the Bolsheviks of Mitau, Russia, many prominent citizens, men and women, were thrown into jail as hostages. Later they were led out

and shot and buried in a mass grave in the courtyard which they had been forced to dig. According to alleged eye-witnesses, some of the victims were not yet dead

when buried. When the German troops and the Baltic Landwehr recaptured the city the victims were disinterred, identified and buried in separate graves.

Plans Calls for Government Purchase of All Mines.

(By Associated Press.)

Washington, August 26.—Nationalization of the coal mines is sought by many mine workers, and a bill to that end has been prepared, Harry Taylor, president of the National Coal Association, testified today before a Senate committee investigating the coal situation.

The plan is for the government to buy the mines and turn them over to the men for operation, Mr. Taylor said.

Already many of the miners are demanding a six hour day and a five day week, he added.

RUSS SOVIET SUPPORTS U. S. PROPAGANDA

Information in Hands of Department of Justice

(By Associated Press.)

Washington, August 26.—Russian Soviet interests apparently are supplying funds for a propaganda to stir up race antagonism in the United States, according to information now in the hands of the Department of Justice.

Officials of the Department said today that charges of an organized propaganda made in the House yesterday seemed to be well founded.

Newspapers, they said, are springing up over the country to spread the propaganda. Facts thus far developed lead officials to believe that I. W. W. and Bolshevik influences were at the bottom of the recent race riots in Washington and Chicago.

HINES ASKS R. R. BOARD AS TO ALL CONDITIONS

Director of Railroads Would Make Readjustments

ON GENERAL PRINCIPLES

Public Interest Demands no General Increases be Made

(By Associated Press.)

Washington, August 26.—Director General Hines today requested the Board of Railway Wages and Working Conditions to take up promptly any claims that have been made or may be made by railroad employees for reassessments that "ought to be made" in order to make sure that equal treatment is given on the basis of the general principles which the Railroad Administration has already established.

The decision announced yesterday by which shopmen will receive an increase of four cents an hour was said to have been one step in carrying out this policy, although it has been deemed contrary to the public interest to make general increases to meet present circumstances, which are believed to be temporary.

The committee of 100 representing the shopmen in session today behind closed doors, considering the decision of President Wilson and Mr. Hines on wage demands.

(By Associated Press.)

Washington, August 26.—The committee of 100 representing the railroad shopmen informed Director General Hines today that they could not accept as a basis of settlement of their demands the rates submitted to them yesterday by President Wilson.

Results of the negotiations were communicated to the union locals throughout the country, with instructions that a strike vote should be taken immediately to determine whether the President's proposals should be accepted.

Pending the issuance of an official strike vote, it was urgently requested by the international officers that all men should remain on the job.

SAYS OFFICIALS ESTABLISHED PROPAGANDA

To Discredit Critics of Military Justice System.

(By Associated Press.)

Washington, August 26.—Charges that Secretary Baker, Major General Crowder, Judge Advocate General, and Colonel John Wigmore "established a propaganda bureau to discredit critics of the existing military justice system and to defend the system" were made before a Senate military sub-committee today by Samuel T. Ansell, formerly Acting Judge Advocate.

Ansell said several officers and about fourteen clerks were regularly assigned to duty in the bureau to issue statements to the press and to Congress.

He also charged that officers who criticized the system were menaced, threatened and disciplined, while those who defended it were promoted.

RECONSTRUCTION COMMISSIONS

Committee Divide Again Along Party Lines

(By Associated Press.)

Washington, August 26.—Under a blanket amendment to the peace treaty agreed to today by the Senate Foreign Relations Committee, American representation would be eliminated from the various international commissions which are to supervise European reconstruction, with the exception of the Reparations Commission and such others as are to be appointed by the League of Nations.

The committee divided along strict party lines, with nine republican votes cast in affirmative and seven democrat votes in the negative.

The change would affect about a score of commissions and would change the language of the treaty in more than fifty places.

YANKEE FARMER

IS NO PROFITEER

THORNE ASSERTS

Head of Wooster Experiment Station in Columbus, Address Shows What Farmer Contributes.

Could Not Produce Wheat At Present Price if Rigid Labor and Other Charges Were Made.

Columbus, O., August 25.—Is the farmer the real profiteer behind the high cost of foodstuffs?

Has the government's subsidizing of farmers, by teaching scientific methods to increase production really benefited the consumer?

Has this vast expense, federal and state, cheapened prices to the public?

Director C. E. Thorne of the Wooster experiment station and Dean Alfred Vivian of the college of agriculture, Ohio State University, to whom these questions were put, make a strong defense not only for the farmer, against any charge of profiteering, but for the government's spending large sums to teach scientific farming and encouraging production.

As to profiteering Dean Vivian says if the farmer were to count his costs — materials, depreciation of property, labor, insurance and the like — the same way a business or manufacturing establishment does, it would have cost him \$2.57 last year to produce a bushel of wheat. The reason he can sell it for less, and still at a profit, is that he offers his own labor and that of his family at a low figure per hour, Vivian asserts.

Extra Bushel for 40 Cents.

As to benefits to consumers, Director Thorne, who does not go into the question of war prices, says that between the decade ended 1879 and the 19 years ended in 1914, the amount of wheat left for home consumption increased from 4.33 bushels to 5.54 per capita, and that for this extra 1.21 of a bushel the farmer obtained only 40 cents.

As to justification of government expenditure to teach and encourage increased production, Dean Vivian asks: "Supposing there were no progress in production per acre, with the population constantly increasing where would the country be at in 10 years?"

Director Thorne says: "It is, of course, not possible to say what the cost of bread would have been during this recent period had there been no increase in the acre-yield of wheat, but it is very safe to say that it should have been materially higher than it has been."

Back from Mexico

It is with a feeling of disappointment and regret that millions of Americans learn of the withdrawal of the punitive expedition into Mexico.

Much as we rejoice to have our soldiers back again on American soil there are, indeed, but few of us who would not rather have seen additional forces dispatched across the Rio Grande river and at other points on the international boundary line for the purpose of assisting in the search for the bandits.

Every time we launch these punitive expeditions across the border to run down Mexican bandits, permit the expedition to result in failure, no matter what the cause of that failure may be and then withdraw at the request of Carranza, we embolden the cut-throat brigands who hold dominion along the border and terrorize the inhabitants of a wide area of our own land. Not only that but, worst of all, we strengthen the hand of the traitorous and ungrateful Carranza.

We have sacrificed thousands of American lives, spent billions of the people's money, travelled three thousand miles across the sea to Europe for the purpose of making the world a safe and a fit place to live in, and yet we permit this menace to life and property to exist at our very door.

A thrill was experienced by all true Americans when our cavalry dashed across the boundary to get the bandits who held captive their comrades.

They would have succeeded too, even that mere handful, if they had been allowed to continue the chase.

We are anxious for our boys to get back home, but we don't want them to come until their work is done and they don't want to come either.

Practice Economy

There is some indication that mounting prices, at least so far as non-essentials are concerned, are causing the people to practice more economy and to exercise more care in the use of their finances.

Many students of conditions have been asserting for some time that only in the practice of economy by the people could a solution of our economic problems be found.

It is difficult for people to practice economy at any time, but it is especially difficult for them to do so when they have plenty of money and, recognizing that fact, many people have joined issue with those who asserted that the practice of economy would soon bring prices back under the rule of supply and demand.

The advocates of price control, or even supply control by the government, except in a few isolated instances, as a means to better conditions, have been few in number. Fixing prices or supply by law is one of the most difficult tasks any government can assume and it is particularly difficult and exceedingly unpopular here in free America where we believe in the maximum of freedom in our own personal affairs consistent with sound government.

Probes and investigations will not solve the problem. They may not be particularly harmful, but, after all, we must get back to supply and demand. The demand can be decreased by the practice of economy. That best of all remedies the people have in their own hands. Will they use it?

The Committee's Action

In view of the action of the Senate Foreign Relations Committee in rewriting that provision of the peace treaty which awards the Shantung province to Japan speculation turns to what action President Wilson will take. By a close vote of eight to seven the Foreign Relations Committee reversed the action of the peace conference and awards Shantung to China.

The action reflects the sentiments of Hiram Johnson, Senator from California, and an uncompromising anti-Japanese radical.

The United States government has with difficulty prevented, during the last half dozen years, an open break with Japan on account of the violent anti-Japanese feeling among the people of the Pacific coast sections, especially in California. The race question, so far as it affects the Japanese, is bitter on the Pacific coast where the two races are in much closer touch than elsewhere in the country.

The action is a sample, too, of the intense bitterness which underlies the senate opposition. The opposing senators seem to have forgotten the larger issues and the bigger principles involved in their anxiety to attain their personal wishes.

Whatever the fate of the treaty may be in the senate, finally, the senate has already made a record which will rank it in history far below the plane we Americans would like to have it occupy.

POETRY FOR TODAY

A WREATH IMMORTAL

The nations weave a garland gay
To deck the Allied dead.
Who died that earth might feel no
more
The tyrant's iron tread;
Old England's rose of velvet red,
The fleur-de-lis of France,
With Cuba's jasmine, waxen-pale,
The blossom of romance;

The Irish shamrock flaggreed
With drops of silver dew;
Brave Belgium's forget-me-nots
So softly, sweetly blue;
The sturdy thistle, purple-dark,
From Scottish glen and hill;
And from the shield of Portugal,
The yellow daffodil.

The wattle from Australia's bush,
Japan's chrysanthemum,
Canada's maple leaf that decked
So gallantly her drum;
Italy's laurel, springing first
To crown a classic god;
And, plumed with glory like the sun,
America's goldenrod.

All, all are rooted in the dust
Of heroes o'er the sea.
Who perished in the righteous cause
Of God and Liberty.
Immortal is the wreath entwined
On this Memorial Day;

GIVE the family a chocolate pudding made rich and creamy with Every Day Milk. It will be so full of pure, milk flavor that you yourself will wonder how you made it at so little expense.

You see, a sixteen ounce tin of Every Day Milk is really all the cream, all the richness, all the butter fat, of over a quart of rich pure milk, only most of the water has been taken out—and nothing has been added.

My family says it looks like cream—and it takes the place of cream.

It makes me independent of the ice man and the milk man. It is always handy—always germ-free and pure—always ready for use—and always has the same delicious cream-like flavor.

SOCIAL : PERSONAL MENTION : CLUBS

Mr. and Mrs. George Swope, of 608 North Wittenburg Avenue, Springfield are informally announcing the engagement of their daughter, Miss Opal Swope, to Mr. Charles B. Parker, of Sand Springs, Okla.

The marriage will take place on Saturday, August the thirtieth. Miss Swope leaves for Oklahoma, Thursday of this week, accompanied by her young nieces, Charlotte and Marriot Parker.

The announcement will be received in this community with the utmost interest and elicit best wishes galore.

The removal of both Miss Swope, a charming young woman who was identified with Washington's social and club circles during her residence in this city, and Mr. Parker, formerly connected with this city's business life and multiple other interests, has always remained a source of regret to their many friends here.

In honor of Miss Faye Duffey, of London, Miss Doris Kelley entertained with an informal dance at her home east of town, Monday evening.

It was a most delightful affair, to which victrola and piano music and tempting refreshments contributed.

Enjoying the dance with the honor guest were Misses Lucile Thompson, Mary Lape, Lillian and Winifred English, Bernadine and Wanda Mae Norris, Dorothy Ware, Martha Minnick, Cozella Townsley, Messrs. Neil Hoppes, Harold and Ernest Wood, Ralph Yeoman, Earl Williams, McKinley Kirk, Harry Vincent, Robert Ware, Robert James, Rutherford Collier, Ivan Bennett and Mrs. Urban Allen and son, John, of Delaware.

The attractive young hostess was assisted in the hospitalities by her mother and Mrs. Allen.

In honor of their son, Orville Flint, who has just returned from a year and a half overseas service, Mr. and Mrs. Silas Flint entertained at their home in Circleville Sunday with a family dinner.

Speakman and family; Mrs. Orville Flint, of this city; Mr. and Mrs. Wesley Grimm, of New Holland; and Mr. and Mrs. Oliver Snider, of Chillicothe; Mr. and Mrs. Marvin Church; Pearl Flint, of Lancaster.

Mrs. Allan Morris was the honor guest at a delightful dinner given at the Morris home on Market street on the occasion of her seventy-seventh birthday Sunday.

The event brought together a number of relatives and friends in happy reunion and was an occasion fondly to be remembered by Mrs. Morris and her friends.

The guests included Mr. and Mrs. Ed Daugherty; Mrs. T. S. Johnson and son Morris of Columbus; Mr. and Mrs. Earl Morris and son William of New Port; Mr. and Mrs. John Morris, Miss Estelle Morris, Dr. and Mrs. H. L. Stitt and children; Mrs. Charles Morris and Mrs. Corda Huffman.

Mr. and Mrs. V. R. McCoy and Mr. Howard Hagler freely extended the hospitality of their country home Monday night at a "community party" introducing a new idea in entertainment in most delightful fashion.

The affair was given for young people of the neighborhood who are going away to school and several teachers leaving soon for Akron. There was a gathering of a hundred and never was an evening more fully enjoyed, games and contests stimulating the merriment. Miss Mazie Kessler's Orchestra played beautifully throughout the evening.

The large grounds were picturesquely lighted with Japanese lanterns and provided ideal setting for the community assemblage.

Refreshments were most generously served.

Mrs. Jack Taylor and little son, Jack, of Columbus, who are house guests at the McCoy home, shared in the evening's pleasure.

The Westminster Guild, the young woman's missionary organization of the Presbyterian church will put on a very interesting entertainment in the nature of a drama at the First Presbyterian church Wednesday night. Monitor Flour

It has been our custom in former years to supply our trade with whatever amount of flour they may need for the year. We have always tried to take their order at a time when the market was at the lowest point. Our judgment leads us to believe that

Now Is the Time To Buy Flour!

We purchased from the Washington Milling Co. this morning 200 barrels of high-grade Monitor Flour. This will be sold in lots of 1, 5, 10 and 20 barrels.

We prefer that you take out the flour at once. However, if it is not convenient for you to do so we will sell you the flour and deliver to you as needed—one-fourth barrel or more at a time.

- One to five barrel lots - \$11.50 per barrel
- Five to ten barrel lots - \$11.40 per barrel
- Ten to twenty barrel lots \$11.30 per barrel
- Twenty barrels or over \$11.20 per barrel

This is a very low price. All indications point to a higher market. The flour is the best you can buy—a high-grade winter wheat patent. Let us have your order now as we cannot guarantee prices beyond the supply we have on hand.

Fancy Indiana Watermelons.

A big shipment came in this morning and are now in our refrigerator. You can buy them ice cold. Delivered to your house at no advance in price. Guaranteed ripe, sweet, ice-cold.

EARLY CUTTING OF CORN CROP IS PREDICTION

A few of the farmers over the county report that the corn is beginning to show signs of ripening and indications are that the corn cutting will start at the usual time although the crop was planted somewhat late. It is expected that the middle of next month will see the first corn in shock.

Reports state that while labor will be more plentiful than last season, yet a good price will probably be paid for cutting.

GEORGE ANNON HURT WHEN MOTORCYCLE COLLIDES WITH AUTO

In a collision early Tuesday morning on Washington Avenue between a motorcycle driven by George Annon and an auto driven by Frank DeWitt, the rider of the motorcycle was thrown to the ground and was stunned so badly that it was some time before he regained his senses. He was also cut about the face. DeWitt was not injured.

It is reported that the accident occurred on Washington Avenue at the intersection of the street, which leads to the Hamm Fertilizer Works.

RAINBOW BAND AT THE MURPHY

The management of the New Murphy Theater, at Wilmington, has booked the famous Rainbow Division Band playing this week at the State Fair, and engaged to play at the Blue Grass Fair, at Lexington, Ky., next week, for Saturday of this week—August 30—both afternoon and evening.

The band is the most famous of all military bands and fought and played all over the western front in France and Belgium. The veterans are musicians as well as fighters. Wilmington extends an invitation to the people of this community to visit the magnificent new theater, the Murphy, erected by Charles W. Murphy, of Chicago, as a gift to his home town.

It is folly to cry over spilled milk; here is enough water wasted as it is.

FAYETTE DUROCS IN CALIFORNIA ARE GIVEN PRAISE

Fayette County is favorably known throughout a wide section of the nation for a good many reasons of which we are all proud.

Fayette County's fine hogs have contributed toward the spread of the county's good reputation.

The latest item to attract interest is the following from The Los Angeles Times of August 9th.

Ireland Durocs.
"One naturally associates green color with the word Ireland, and certainly beautiful green fields are found at the Ireland Ranch in the San Fernando Valley near Owensmouth. The Duroc-Jersey hogs are just as beautiful as the fields, even to the mammoth boar, Cherry Volunteer 2nd, standing 40 inches high and as good as he is tall. He is by Cherry Chief 2nd and out of Volunteer's Defender Lady.

The junior herd sire is Ireland's Joe Orion, sired by Joe's Orion Cherry King 4th. He is the boar that Fred Devore tried to take back East and for which he offered Ireland Ranch \$2,000. He would be a candidate for high honors at any show in the world. The females in this herd are a wonderful lot—just as good as the males."

The sire of the Ireland herd of Durocs attracting so much favorable comment on the far Pacific coast was purchased by Dr. W. E. Ireland of this city from the Hugh K. Stewart Estate and shipped to Los Angeles to Dr. Michael S. Creamer and placed on the ranch of Ireland and Creamer which is located in famous San Fernando Valley. Dr. Creamer spares time enough from his Los Angeles practice to look after the fine ranch property and the now famous Durocs.

HANGINGROCK LADY ASSERTS SUPERIOR CANNOT BE FOUND

"Trutona's the Best Medicine I've Ever Taken," Mrs. Watkins Says.

Portsmouth, O., August 25—"I think Trutona is the best medicine I've ever taken and I'm sure it will help anyone who is in a weakened and run down condition." Mrs. Mary Watkins, 69 years old a well-known resident of Hangingrock, said recently.

"I was suffering with rheumatism and kidney trouble and my stomach was out of shape, she continued. "I'd have severe pains in my back and for a number of years I've been bothered with pains around my heart. I'd often have to take some strong medicine to deaden the pains.

"I've just now finished my first bottle of Trutona and it certainly has helped me a whole lot. For the past few days I haven't been bothered with the pains around my heart. My stomach has ceased to bother me and I don't have the pains in my head now. In short I feel better in every way and I'm going to continue using Trutona. I'm sure it will eventually completely relieve my troubles."

Trutona is now being introduced and explained in Washington C. H. at Frank Christopher's drug store. Adv.

Why You Need One

You, like many other retailers may be satisfied that your business is paying you a profit; yet you do not know how much money you are losing every day through pencil and paper methods of figuring. Neither are you getting any of the business building figure facts that are necessary to make your business pay you all the profits that rightfully are yours.

A Burroughs Figuring Machine will give you this information quickly and accurately. It will put organization and accuracy into your business—be it large or small—and will stop the *unseen*, profit-robbing leaks that are keeping many a retail business close to the edge.

You don't want to lose money by errors

—especially in the addition of sales slips, where most mistakes occur. One figure added wrong spells a certain loss for you—and such errors usually get by without detection.

You don't want to offend customers by overcharges

If you overcharge a customer even once through a perfectly understandable error in the addition of a sales slip or statement, you've lost some part of her confidence. If you overcharge her again and explain that "mistakes will happen" she becomes interested in other stores that she'd never thought of before.

You want to know your Daily Profits

No man likes to do business blindfolded—yet many retailers do, simply because they hate to wade through a maze of figures to get to the light. A Burroughs will give you the amounts of your daily profits, sales, and expenses. It will tell you every day just how your business stands—and it gets this information quickly and accurately.

You want to keep tab on your clerks

This information is absolutely necessary. You should know how much each clerk and each department sells every day. You should be able to tell which clerk is an asset, which department is paying and where you are making money. A Burroughs Machine will get this information for you speedily and accurately.

You want as simple bookkeeping as possible

Keeping books with a Burroughs is not only the simplest but the *least expensive* method. It is automatic and absolutely accurate.

In the standardized line of Burroughs Machines there is one designed especially for every retail establishment—either large or small. It fits into any retail bookkeeping system without changing the system.

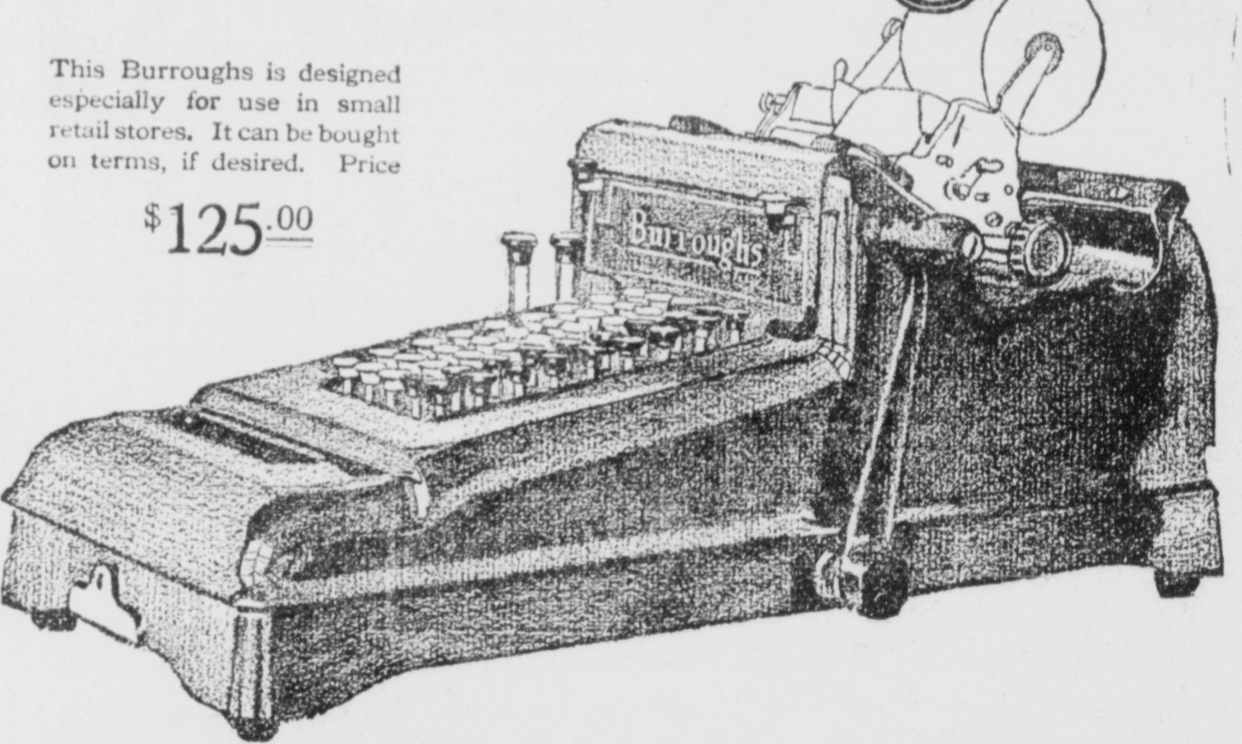

It makes all postings from sales slips to ledgers, all entries on statements, and proves the work as it goes along—keeping the books in a continuous balance. It prevents errors and saves time and money on every item it handles. Statements are always out on the first of the month.

Let the Burroughs man show you how a Burroughs Machine will help you increase your profits. Such a request will place you under no obligation whatever.
